#KIDSFIRST

A CAMPAIGN TO MAINSTREAM CHILD RIGHTS INTO CLIMATE ACTION

Dear delegate

Children represent 1/3 of the world population and are the most severely affected by climate change.

More than one in four children under 5 die every year due to environmental hazards.

1 billion children and adolescents live in countries classified as extremely high climate risk.

2022 is UNFCCC's 30th anniversary and to date no decision has been made to protect children in the face of the climate crisis.

You can change this!
Put **#KidsFirst** to mainstream the needs of children in COP27 negotiations in areas such as adaptation, climate empowerment, finance, global stocktake and gender.

Join us to build the CAP - Children Action Plan

Here is how to
TAKE ACTION!
